

Improving Diversity In International Arbitration

We are pleased to invite you to an evening of networking and discussion in connection with recent initiatives and ongoing challenges regarding diversity in international arbitration.

The evening will begin with a Speednet (women only) networking session, to be followed by a debate open to all, with a panel of speakers bringing perspectives from law firms, clients, arbitral institutions, and arbitrators, and addressing concrete ways to improve gender diversity as well as regional and generational diversity in international arbitration.

Thursday, 15 March 2018
