CLEARY SPEAKER

Cybersecurity Risk Management: Key Issues Facing Boards, Management and In-House Counsel

Richard Kreindler

Partner, Frankfurt office, Cleary Gottlieb Steen & Hamilton LLP

Richard Kreindler is a partner based in the Frankfurt office. His practice focuses on international arbitration and litigation, including commercial and construction arbitrations, investor-state disputes under public international law, and transnational litigation matters, as well as on cross-border investigations and anti-corruption. His experience extends across Europe, the United States, Asia and the Middle East.

Mr. Kreindler has acted as counsel for European, U.S. and other multinational companies in over 200 commercial, post-M&A, construction and infrastructure arbitrations before and under the rules of the leading US. European and other institutional and ad hoc arbitration regimes. He also routinely advises on multijurisdictional aspects of US, German, European, Asian and Middle Eastern civil litigations, including cross-border taking of evidence and recognition and enforcement of judgments. In addition, he provides regular advice to leading international companies on compliance and anti-corruption programs and policies, including in the context of government investigations of foreign corrupt practices; at the request of Nokia Corporation, he served in 2007 as Chief Compliance Office of Nokia Siemens Networks (NSN). His experience in the areas of international law and conflict resolution makes him an indispensable member of the firm's Global Crisis Management team.

Mr. Kreindler has published several treatises and over 400 other publications and lectures on international arbitration, litigation and compliance/anti-corruption issues. He is an Honorary Professor at the University of Münster, Germany. He is distinguished as a leading lawyer in arbitration in Germany and globally by, among others, *Chambers* and *JUVE* and has been ranked in the top 10 and top 20 arbitration practitioners worldwide by Global Counsel and Cross-Border Quarterly respectively.
